

The future of meetings start here

Transform meeting spaces into collaboration hubs

Award-winning innovation. Scalable management. Sustainable by design.

Meeting spaces reimagined

By now, you've probably already had the "we need to fix our meeting rooms" conversation. Maybe it started after yet another delayed meeting. Maybe it was a frustrated exec who couldn't be heard on an important client call. Or maybe it's the IT team flagging the rising tide of support tickets.

You're not alone, the shift to hybrid work has exposed the cracks in outdated meeting room setups. But fixing one or two rooms isn't enough. The challenge is how to enable seamless collaboration across every space, without burning out your IT team or blowing your budget.

This is where we are changing the game.

We've honed our expertise in designing collaboration tools that make hybrid meetings feel natural—whether you're in the room, working from home, or halfway across the world. Our systems are built to deliver simplicity and effectiveness, empowering first-time guests and tech-savvy employees alike. With solutions designed for scalability, they're just as easy to manage across five meeting rooms as they are across 500.

Our promise

Intuitive user experience that works the same everywhere, so meetings start on time and stay on track.

Sustainable by design to help you meet environmental goals and protect your investment.

IT-friendly manageability that makes scaling, monitoring, and troubleshooting seamless.

Together, with our trusted video collaboration partner Logitech, meeting rooms stop being a point of friction and start becoming your superpower.

Engineered for IT. Built for teams. Recognized by the world.

We're at a virtual moment where hybrid working is the new reality. When communication and collaboration is so critical to what we do, the adoption of Zoom and Logitech was a 'lifesaving' opportunity for us. ”

Raj Upadhyay,
Vice President, Information Technology at Genpact

Let's be honest, there's a lot of choice in meeting room technology. But not every solution can deliver a great experience at scale. With our Logitech partnership, we are extending human potential in work with trusted solutions you can rely on.

Here's why IT leaders and workplace experience managers trust us:

Award-winning innovation

With over 250+ design awards, Logitech's collaboration solutions have been recognized by Red Dot, iF Design, and Frost & Sullivan for its combination of performance, usability, and sustainability.

Managed service offerings

As a Logitech video collaboration specialist, our comprehensive services ensure your meeting space solutions are always on and always available. This includes ongoing maintenance, proactive monitoring, and rapid troubleshooting to keep collaboration seamless.

Logitech Sync

Provides a single dashboard to monitor, manage and update every device, in every location.

Sustainability that means business

Recycled materials, carbon impact labeling, and long product lifecycles to support ESG and procurement goals—without compromising product quality and performance.

Cross-platform certified

Our solutions are certified for Microsoft Teams, Zoom, and Google Meet, integrating seamlessly into your chosen ecosystem without hacks or workarounds. Plus, the flexibility to deliver on both Android, Windows, and Chrome provides peace of mind that this is a reliable and secure solution, and will continue to grow with you.

Global deployment ready

From a single huddle room to a multinational rollout, our solutions scale consistently and reliably.

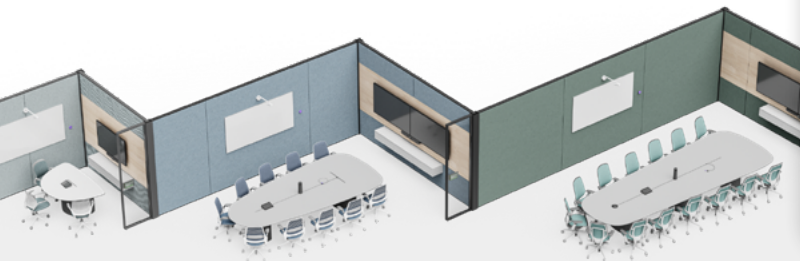

One portfolio. Every space. Designed for success.

Delivering seamlessness, simplicity, and sustainability

The biggest challenge IT decision-makers face in upgrading meeting spaces is ensuring consistency across environments.

Too often, meeting rooms rely on hardware and controls that vary from space to space, creating confusion for employees, operational headaches for IT, and inflated support costs.

Our Logitech partnership offers a smarter path forward—a single, cohesive portfolio of solutions designed to meet the needs of every space and every user.

From small huddle rooms to large boardrooms, Logitech meeting room solutions ensure:

Intuitive, human-first experiences

Employees can start meetings quickly and collaborate without friction, whether in the office, at home, or on the move. Logitech products are designed with users in mind, making technology approachable and comfortable.

Consistent user experiences everywhere

With Logitech, employees enjoy the same interface, simplicity and quality across all environments—whether at their desk or in a meeting room—eliminating variability and ensuring seamless collaboration.

Scalable solutions for global businesses

Today's companies operate across borders and locations. Logitech solutions are designed to make deployment and scaling easy, supporting businesses in their global growth.

Sustainability at the core

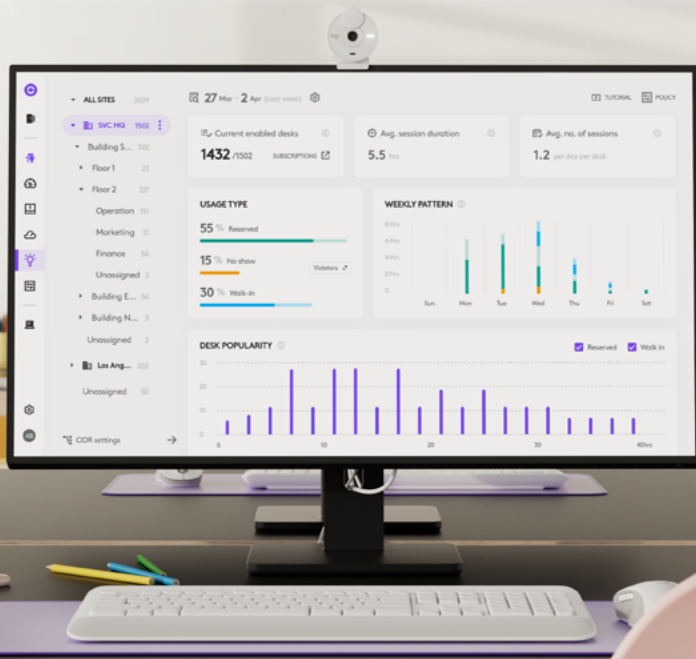

Through thoughtful design, extended product lifecycles and innovative use of software, Logitech not only delivers exceptional technology solutions but also embodies a commitment to sustainability.

We make this possible because we understand that technology should empower teams, not distract them. Our solutions are built to unlock the full potential of your workforce—fueling better collaboration, greater productivity, and business success.

DESIGN YOUR ROOM WITH THE
LOGITECH ROOM CONFIGURATOR

Remote room management. Without leaving your desk.

Imagine troubleshooting a room device in New York while working at your desk in London— and deploying a firmware update to hundreds of meeting spaces with a single click. That's the power of Logitech Sync, a solution designed to make remote room management seamless, efficient and stress-free for IT teams.

Why IT teams trust Sync

Centralized fleet management

Sync's dashboard makes it effortless to monitor, update, and optimize every device across your organization—ensuring uninterrupted performance and streamlined operations.

Remote troubleshooting

Identify and resolve issues before they disrupt meetings with tools like remote reboots, remote UI access, and instant support ticket creation directly in the Sync platform.

Room usage insights

Leverage occupancy data to optimize layouts, uncover underutilized spaces, and drive more informed future investments. Sync Plus goes further by turning these insights into actionable analytics for smarter budget decisions.

Key features designed for IT success:

✔ Simple device provisioning

Assign user permissions by role and organize rooms and desks using organizations, groups and tags for streamlined management.

✔ Push and control updates

Deploy CollabOS firmware updates or custom channels at scale—with options for production rollouts or beta testing via Sync.

✔ Integrated ecosystem connections

Sync integrates with major platforms like Teams Admin Center and Zoom Device Management, ensuring a unified workflow that eliminates silos and simplifies hybrid ecosystems.

✔ Smarter space management

Monitor room usage, track occupancy trends and analyze granular usage data to optimize layouts, address issues proactively and make informed decisions about your workplace strategy.

Shape a sustainable future and stronger bottom line

Modernizing meeting rooms isn't just about better meetings, it's about making smarter, future-ready investments that deliver returns you can measure. Our partner, Logitech, builds sustainability and ROI into every solution they create.

Sustainability that drives value

- + Recycled materials across major product lines, without compromising durability or performance.
- + Carbon impact labels that make procurement decisions more transparent.
- + Reduced packaging that cuts both waste and shipping costs.
- + Long lifecycles that lower refresh frequency and reduce e-waste.

ROI that delivers impact

Organizations that modernize their meeting rooms with purpose-built Logitech solutions report:

Decision-making is up to 25% faster¹

thanks to clear communication and real-time content sharing.

Client engagement is on the rise

when meetings are professional, immersive, and inclusive.

Meeting fatigue

is down when participants can hear and see without strain.

IT support calls

are reduced due to intuitive, reliable devices.

When scaled across an organization, these gains multiply, delivering a stronger return on every meeting room upgrade while helping you meet ESG commitments.

Trusted by IT. Loved by Teams. Recognized globally.

From senior living and healthcare to global retail and energy, organizations of every size choose Logitech to make hybrid work seamless, inclusive and sustainable. These are just a few of the customers who have reimagined meeting experiences with Logitech.

FROST & SULLIVAN

Market Leadership in Video Collaboration

Healthcare, Canada

43,000+
employees

With over 480 properties across North America and the UK, Revera connects 43,000 employees and 45,000 residents. Hybrid work was critical for clinicians and staff delivering senior care.

Logitech solutions like Rally Bar, Brio and MX Keys Combo created a consistent experience across offices and homes. Easy-to-use tech helped staff connect instantly, while integrated collaboration tools improved care delivery and even laid the foundation for telehealth innovation.

Video collaboration, when done right, fades away, allowing people to work together without technology becoming a barrier. ”

Joe Belinsky,
CIO at Revera

Consumer Goods & Manufacturing, Germany

47,000+
employees

Operating in 75 countries, Henkel needed to equip 700+ meeting rooms and support a workforce that now hosts 9,000+ attendee global virtual events.

By standardising with Rally Bar family, Sight, Tap Scheduler and Sync, Henkel created equitable collaboration for every meeting. Video calls surged 1100% per month, while IT gained remote management tools that cut support needs and supported the company's sustainability goals.

With Logitech's solutions, we've removed complexity from virtual meetings so employees can focus on their discussions rather than the technology. ”

Dirk Lehmann,
Head of AV Services at Henkel

Retail, USA

10,000+
employees

Luxury retailer NMG reimagined its workplace around flexibility and equity, designing “hub offices” where collaboration comes first.

With Logitech’s Rally Bar, Rally Bar Mini, Tap, Scribe and MeetUp 2, every hub room delivers a consistent, simple Microsoft Teams experience. Associates no longer rely on IT for setup, and remote staff feel just as included as those in the Dallas HQ.

The result: higher employee satisfaction, lower attrition and major real-estate cost savings from reducing 400,000 sq ft of office space.

“We believed that Logitech would bring the same quality and reliability to our AV platform as they’ve always brought to peripherals — and we were right.”

Jerry Johnson,
Director of Infrastructure Services at
Neiman Marcus Group (NMG)

Energy, Australia

1,000+
employees

As Australia’s leading renewable energy company with 30+ power stations, Hydro Tasmania needed to keep remote staff connected across rugged terrain. Deploying Rally Bar, Tap Scheduler, Brio 505, MX Keys and Zone headsets streamlined meetings across 88 rooms, reduced risky travel and aligned with Hydro Tasmania’s sustainability mandate.

“When we see partners who share our values around renewability and sustainability, it’s always an advantage.”

Sarah Hill,
Senior Project Manager at Hydro Tasmania

Mobile Apps, Netherlands

70+
employees

After the pandemic, Impala Studios needed a hybrid model that balanced culture with flexibility. With Rally Bar, Scribe, Tap and Brio webcams, they bridged the gap between office and home, even using Logitech solutions for global talent recruitment interviews. Employee satisfaction soared: those agreeing “technology contributes to completing work effectively” rose from 53% to 76% in one year.

“Logitech solutions allow us to be together in the same space, even when we are not physically there.”

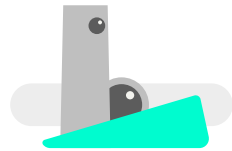

Aline Lickel,
Senior Product Designer at Impala Studios

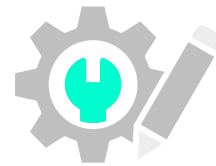

As a trusted Logitech partner, we help you design, deploy, and support meeting spaces that meet today's hybrid demands and tomorrow's growth. From the smallest huddle room to a global rollout, we'll make it simple, scalable, and sustainable.
